The Governor's announcement followed a heart to heart talk he had toas to the appearance of the lawyer and minor details of their meetings.

Gov. Sulzer is much wrought up about Dr. Russell's assertion that William F Clark, secretary to the Governor's commission of inquiry, told him that the New York National League Club Governor would be pleased if Thaw was released from the asylum.

The Chief Executive wasn't inclined to discuss what he thought of this alleged statement, but he did make this remark, which was regarded as indicative of his view:
